Sponsorship Opportunities

Summer RosettaCon 2026

Thank you for your interest in supporting the Rosetta Commons community. Sponsoring our annual conference is a valuable opportunity to connect your organization with the cutting-edge work shaping the future of protein design, biomolecular modeling, and computational biology.

Our annual flagship conference brings together a global network of innovators—scientists, developers, students, and industry partners—who are advancing breakthroughs in machine learning, protein design, drug discovery, and community-driven science. In our close-knit setting, sponsors have a unique opportunity to connect with leaders across academia and industry, engage with emerging talent, and gain insight into the ideas shaping tomorrow’s biomedical landscape.

Your sponsorship directly supports student participation, expands access to training, and strengthens the pipeline of future scientific leaders. With your investment, we can continue to push the boundaries of what’s possible in our field.
